**Scienco®/FAST PROVIDES LAND & MARINE WATER MANAGEMENT SOLUTIONS**

Scienco/FAST is a global manufacturer of Water Management Solutions: Agriculture drainage systems, Commercial Food & Institutional Equipment, Municipal Water Treatment, Hospital/Institutional Equipment, industrial and commercial bulk salt, dispensing systems (brinemakers), liquid injection systems, and environmentally-friendly maintenance tablets and cleaners.

With over 65 years of history unlike any other, the origins of Scienco® and FAST® can be traced back to the 1940's in St. Louis, Missouri, and solid salt management systems. In 1985, Scienco/FAST® produced the first intrinsically inherently recyclable high-quality, water, waste water, and maintenance products with top-notch field services. Scienco®'s current commercial product line continues proven performance with long-term reliability and many low cost options.
Are the result of decades of experience, research & development, and real-world operating history.

- Scienco® Commercial Equipment Division
  - SciBRINE® Bulk Salt Dissolver & Brinemakers: produce and store a liquid brine solution that can be used in various applications, such as a food additive, a chemical feed for various chemical processes or an ion exchange/water softening process, etc.
  - FlucROW® Liquid Injection Systems: provides economical, accurate, and reliable dispensing equipment for industrial and food processing markets. Dispensing ingredients such as water, brine, citric acid, calcium chloride, oils and sauces.

Awards, Technology Approvals, and Certifications

- 2017 Top 10 Green Building Products, BuildingGreen, Inc.—d-Rain Joint™ Device
- 2016 President’s “E” Award, Small, in 2012 President’s “E” Award for Excellence in Exporting from the United States, for “McRoberts, Inc.”
- 2016 Innovator Award Winner, Innovation Center at the State Capitol, Innovation Center for Americans, awarding “innovators who are changing the American way of life”
- 2017 “Best of Greenbuild” Editor’s Choice Award, U.S. Builders Review, BuildingGreen, Inc.
- 2017 Technology Innovation Award, (International Commercial Solutions), The B2B Technology Review
- 2011 Top Product of the Year Award, Packaging Category, Environmental Technology Innovation Award, Salmon & Salmon, Inc.
- 2011 Kansas Governor’s Exporter of the Year, presented by the Office of Trade & Export Development

- 2008 Technology World Best Business Achievement Award, (Packaging/Environmental), Practical Engineering
- 100% MBE, WBE, & Disabled Veteran Business Enterprise (DBE) Certified – (National Gundam)(National Gundam) Business Enterprise Certification
- China Classification Society (CCS), PSC 2001 (PSC2001) – Fast Technology Approval

- Scienco/FAST is a global manufacturer of Water Management Solutions: Agriculture distribution systems, Commercial Food & Institutional Equipment, Municipal Water Treatment, Hospital/Institutional Equipment, industrial and commercial bulk salt, dispenser systems (brinemakers), liquid injection systems, and environmentally-friendly maintenance tablets and cleaners.

With over 65 years of history under its belt, the origins of SCIENCE® and FAST® can be traced back to the 1940s in St. Louis, MO for water and salt management systems. In 1985, SCIENCE®/FAST® produced the biodegradable, biocidal liquid that can replace the commercially available chlorination system. It is a natural alternative with a slowly released chlorine to disinfect water. Since then, the product line has expanded to include a wide range of products and services that are designed to provide solutions for various industries and applications.

- Bio-Microbics Inc. is a subsidiary of Bio-Microbics, Inc.

‘Green’ cleaning refers to using environmentally-friendly, biodegradable, and non-toxic cleaning products. Commercially available and with our commitment to ensure the highest QUALITY products that are safe for the environment and waterways, Mighty Mike ® products are tested in QUALITY control laboratories or other industrial settings.

### 1. Mighty Mike ® Laundry Detergent:
- **Description:** 2X concentrated, clear, low-sudsing, scent-free, petrochemical solvent-free detergent perfect for those with sensitive skin. High-Efficiency (HE) washers, and onsite wastewater/greywater treatment systems. Powerful enough to remove nearly 100% of tough organic stains and entrapped odors, yet extremely gentle on fabrics.

### 7. Mighty Mike ® FogHog® Tablets:
- **Combat the accumulation and management of Fat, Oil, & Grease (FOG) with treatment utilizing a special formulation over 25 billion active, robust, class 1 organisms per gram to consume and breakdown FOG naturally in septic tanks, pipes, etc.** Ideal for pumping stations at <300GPM!

With more than 60,000 water, wastewater, greywater & stormwater installations in over 70 countries, our Fixed Integrated Treatment Technologies (FITT) are the result of decades of experience, research and development, and real world operating history.
Green’ cleaning refers to using environmentally-friendly, biodegradable, and non-toxic cleaning products. Commercially available and with our commitment to ensure the highest QUALITY products that are safe for environment and water ways, Mighty Mike® products are tested in quality control laboratories or other industrial settings.

A. MIGHTY MIKE® LAUNDRY DETERGENT: 2X concentrated, clear, low-sudsing, scent-free, petrochemical solvent-free detergent perfect for those with sensitive skin. High-Efficiency (HE) washers, and onsite wastewater/greywater treatment systems. Powerful enough to remove nearly 100% of tough organic stains and entrapped odors, yet extremely gentle on fabrics.

B. MIGHTY MIKE® ALL-PURPOSE CLEANER: Gently lifts dirt, oil, grime to effectively clean and degrease without leaving residues or surface damage. A botanical mixture that contains no harmful detergents, solvents, perfumes or dyes, the Mighty Mike® All-Purpose Cleaner effectively targets the stain, not the surface.

C. MIGHTY MIKE® MARINE MULTI-PURPOSE CLEANER: A botanical mixture to clean all washable surfaces (from bow to stern and from port to starboard) without damaging surfaces or leaving harmful pollutants, heavy metals, or chemicals listed under RCRA, CERCLA, CWA or contains any other environmental contaminants.

D. MIGHTY MIKE® CPT TABLETS: Time-released per flush, these “puck-sized”, calcite/prevention tablets provide longer-lasting treatment to reduce cost associated with removing calcium build up. Ideal for use in a vacuum sanitary waste system.

E. MIGHTY MIKE® BOND-SORB® ODOR ELIMINATOR: A clear, concentrated, powerful formula effective at bonding and absorbing the odor-causing molecules causing the odor. Effective at eliminating deeply embedded odors through one-time application or in everyday maintenance procedures.

F. MIGHTY MIKE® INDUSTRIAL DESCALER: Rapidly dissolves water scale, lime, and other mineral deposits that hinder the performance of vital water systems. Sprays on, wipes off with ease to dissolve the toughest mediums, even tannic acid, with little or no work.

G. MIGHTY MIKE® MARINE DESCALER: Formulated for aluminum metal parts, it rapidly dissolves water scale, lime, and other mineral deposits that hinder the performance of vital water systems. Not a powder or paste, this ready-to-use liquid removes rock-like scale deposits to keep the vessel operating at optimum levels.

H. MIGHTY MIKE® FOGHog® TABLETS: Combat the accumulation and management of Fat, Oil & Grease (FOG) with treatment utilizing a special formulation over 25 billion active, robust, class 1 organisms per gram to consume and breakdown FOG naturally in septic tanks, pipes, etc. Ideal for pumping stations at <300GPM!

I. MIGHTY MIKE® U&F-BOOST® TABLETS: Activates in anerobic/aerobic environments, these Billion-Organism-Oxygen-Sewage-Treatment tablets utilize over 25 billion active, robust, class 1 organisms to boost performance and consume organic material, urine and feces naturally in your septic tank!

J. MIGHTY MIKE® Ultra-Bio® Tablets: Micro-organisms in Mighty Mike® Ultra-Bio® tablets are approximately 7/8" (2.2 cm) in diameter and 5/8" (1.58 cm) thick.

S.O.S.—Save Our Septic Warranty Program

RetroFAST® Designated a water pollution control technology by the US Army Corps of Engineers as a water treatment system.
With over 60,000 installations in more than 70 countries, our Fixed Integrated Treatment Technologies (FITT) are a cost effective and versatile solution for wastewater treatment. Our equipment is designed to meet the needs of businesses of all sizes, from small industrial facilities to large urban water treatment plants.

Our technology is recognized for its efficiency and reliability, earning us numerous awards and certifications. We are proud to have received the 2012 President’s “E” Award for Excellence and the 2015 Ingenuity Award Winner for our innovations in water and wastewater treatment.

We are also a certified member of the National Association of Manufacturers (NAM) and the National Small Business Association (NSBA). Our commitment to quality and innovation has earned us the trust of our customers around the world.

Our team of experts is dedicated to providing the best possible service and support to our clients. We offer a wide range of options to meet the specific needs of each project, including custom design and installation services.

Whether you need a simple solution or a complex system, we are here to help. Contact us today to learn more about our Fixed Integrated Treatment Technologies (FITT) and how they can benefit your business.
